

PERMIT # 13-059

Page 1 of 3

WASHINGTON STATE SCIENTIFIC COLLECTION PERMIT

Washington Department of Fish and Wildlife, Attn: SCP
600 Capitol Way North
Olympia, WA 98501
(360) 902-2464

RCW 77-32-240, WAC 220-20-045.

Permit holder is authorized to collect fish, shellfish, wildlife, or the nests of birds, as provided herein and under the Permit Conditions for:

☐ Display/Education☒ Research/ Scientific Investigation☐ Stream AssessmentStarting Date: March 13, 2013Expiration Date: March 13, 2014

Permit Holder: Erick VanDyke Agency: ODFW Address: 17330 SE Evelyn Street Clackamas, OR 97015	Telephone: 971-673-6068 Email: Erick.vandyke@state.or.us
---	---

Sub-Permit Holder(s): Charles M. Barr	Matthew D. Gardner
---	--------------------

Species:	Number:	Location:	Method of Collection:
Northern Pikeminnow	2500	Columbia River	Boat electrofishing, gill net, trap net, hook & line
Smallmouth bass	25000	Columbia River	Boat electrofishing, gill net, trap net, hook & line
Walleye	500	Columbia River	Boat electrofishing, gill net, trap net, hook & line
Channel catfish	200	Columbia River	Boat electrofishing, gill net, trap net, hook & line

GENERAL PERMIT CONDITIONS:

1. A Scientific Collection Permit is non-transferable.
2. A copy of this permit must be in the possession of any person exercising the privileges authorized by this permit.
3. The Permit Holder is responsible for ensuring that all Sub-Permit Holders are qualified and experienced to conduct the specified activities and comply with all conditions of this permit. Only those Sub-Permit Holder(s) listed on the permit are authorized to engage in permitted activities.
4. Please note that compliance with Scientific Collection Permit requirements and permit conditions does not ensure compliance with federal, local, or other state laws. Collection of state or federal endangered or threatened species, state sensitive species, or state or federal candidate species is prohibited unless specifically authorized in this permit. Collection of game birds or game animals is prohibited unless specifically authorized in this permit. Collection of migratory birds, marine mammals, and any species listed under the federal Endangered Species Act may require a federal permit before collecting.

For any collection/research activity of marine mammals and/or federally-protected anadromous and marine fish species, etc., contact NOAA-National Marine Fisheries Service at <http://www.nmfs.noaa.gov/endangered.htm> or 503-230-5400. For any collection/research activity of migratory birds, resident fish species (bull trout) and/or federally-protected wildlife, contact U.S. Fish and Wildlife Service at <http://endangered.fws.gov> or 360-753-9440.

5. This permit does not authorize collection from non-WDFW protected lands or waters (may include but not exclusive to: parks, reserves, refuges, natural areas, conservation areas, tribal lands, monuments, etc.). This permit does not authorize trespassing on private or restricted public lands. Additional permits issued by landowners/managers may be required.
6. No collection shall occur in WDFW conservation and wildlife areas or marine preserves, unless otherwise specified in this

permit.

7. Specimens acquired under this permit remain the property of the state and will not be offered for sale or sold or used for commercial purposes or human consumption. Exchange or transfer of specimens, unless otherwise specified in this permit, requires prior written approval from the Director of WDFW.
8. Employees of WDFW have the right to inspect the collection activities authorized by this permit.
9. Vessels engaged in collection activities shall display a sign "RESEARCH," readable at 100 feet to unaided vision.
10. Permit Holders using unattended equipment must have attached to that equipment, a tag clearly marked with the permit number and name and current address of the Permit Holder. The address used may be that of the organization the Permit Holder represents, e.g., university, company, or corporation.
11. Permit Holders may only use FDA approved fish anesthesia. MS-222 use is prohibited at times and in places where fish may be subject to "catch and keep" fisheries within 21 days. Irritants or poisons are prohibited at all times.
12. Unless otherwise specified in this permit, release of specimens is allowed only at the exact capture site immediately after capture. Release of fish and marine and freshwater invertebrates at any other site or time requires a transport, release, or planting permit. The conditions of this permit may specify that no release of certain specimens is allowed. Contact WDFW Fish Program (360-902-2700) or Wildlife Program (360-902-2515) for further information.
13. **Reporting Requirements:**
Reports must be submitted to WDFW upon completion of the display or research project, and must be received no later than 60 days after the expiration of the permit. All reports submitted to WDFW shall include Permit Holder's name and permit number.
 - For **anadromous fish and freshwater collections**, the report shall include the 1) Date of collection; 2) Species name (for invertebrates, to the lowest taxonomic level possible); 3) Numbers of each species encountered and/or retained; 4) Location of each sample site, including county, water body, and latitude/longitude or GPS coordinates; 5) Disposition of specimens. This information is to be recorded at each capture site and includes ALL species encountered (or impacted by the collection activity) even if not retained or meant for the study.
 - For **marine collections**, the report shall include the 1) Date of collection; 2) Species name (to the lowest taxonomic level possible); 3) Numbers of each species encountered and/or retained; 4) Location of each sample site, including county, water body, and latitude/longitude or GPS coordinates; 5) Disposition of specimens. This information is to be recorded at each capture site and includes ALL classified and unclassified species encountered (or impacted by the collection activity) even if not retained or meant for the study. IN ADDITION, for:
 - **Rock scallops** (*Crassodoma gigantea*) include: specific location, mortality of any rock scallop during collection, exact position and depth of specimens collected, and shell length measured from edge to edge at the widest part of the shell.
 - **Octopus** (*Enteroctopus dofleini*) include: specific location, individual weight, depth, and sex of octopus taken.
 - **Geoduck** (*Panopea abrupta*) include: specific location, gear used, depth, and individual weight of geoducks taken.
 - For **wildlife collections**, the report shall include the 1) Date of collection; 2) Species name (common and scientific) with number collected, number released, and disposition of retained individuals; 3) Location of collection, with one or more of the following: legal description (Township, Range, Section, and 1/4 and 1/16 Section), map with location indicated, UTM coordinates, or latitude/longitude coordinates.

SPECIAL CONDITIONS:

SCP shall not be valid for the take or handling of ESA-listed species unless permit holder has obtained all necessary federal ESA take authorization(s) (A Section 7 or 10 must be attached to be valid in the State of Washington).

An annual report is required, indicating the numbers of each targeted and non-targeted species collected, the location of their capture, the method of capture, the date of capture, and the disposition of these specimens in an itemized fashion. This information is to be recorded at the capture site, and the report shall be submitted to WDFW within 60 days of project completion.

Non-target species must be returned immediately to the water in a fashion that will not injure them or cause mortality.

To prevent the spreading of aquatic invasive species, permit holder shall follow the procedures in the attachment, WDFW Protocols

For Field Work Version 2 dated November 2012 (or the latest version of this document). For additional information on aquatic invasive species, please visit the WDFW website at <http://wdfw.wa.gov/ais/>.

Permit holder must euthanize and dispose of all collected non-indigenous or invasive species that fall under the classification "Prohibited aquatic species" (WAC 220-12-090) at an appropriate upland site or they must be sent to a landfill or sanitary sewage system in accordance with local regulations. No invasive specimens may be disposed of on any beach or reintroduced to a freshwater or marine habitat of any kind. A report that indicates the numbers of each prohibited species encountered as well as the locations of their capture is required to be submitted to WDFW.

For more information regarding this condition, contact WDFW aquatic invasive species biologist Allen Pleus (360-902-2724).

Aliquots of any tissue samples collected, together with accompanying collection and biological data, may need to be provided to WDFW for potential future use by its staff or by others. Prior to sampling, permit holders must contact the WDFW Molecular Genetics Lab at 360-902-2774 (<http://wdfw.wa.gov/genetics/index.htm>) regarding this condition.

Due to the potential for incidental captures of bull trout, permit holder is required to notify WDFW bull trout research biologist Jim Byrne (360-906-6751) with the date, fork length, and location (general, and lat - long if possible). Permit holder is requested to take a fin clip could be taken from all bull trout sent to WDFW bull trout research biologist Jim Byrne (WDFW, 2108 Grand Boulevard, Vancouver, WA 98661).

Electrofishing shall be conducted in such a manner as to minimize injury to the primary species of interest as well as all associated non-target species while adhering to the attached Electrofishing Guidelines.

Permit holder shall avoid **electrofishing** spawning female salmonids, in identified bull trout habitat, or areas with redds.

An HPA Permit will be needed if any of the sampling and collection activities will use, divert, obstruct, or change the natural flow or bed of any of the salt or freshwaters of the state. Please contact the appropriate WDFW habitat biologist (<http://wdfw.wa.gov/conservation/habitat/ahb/>) for more information.

Fish Anesthesia

1. To use AQUI-S® 20E as an immediate release sedative in freshwater finfish for field-based activities, permit holder must sign-up to participate in USFWS-AADAP INAD 11-741 and must comply with the requirements as set forth in the INAD Study Protocol for AQUI-S® 20E (For more information about aquatic animal drugs, AQUI-S® 20E, or to apply to participate in USFWS-AADAP INAD 11-741, go to www.fws.gov/fisheries/aadap or contact the USFWS-AADAP INAD Administrator, Bonnie Johnson, at Bonnie_Johnson@fws.gov or 406-994-9905).
2. Carbon dioxide can be used as a fish anesthetic as per FDA rules and requires no withdrawal time.
3. As an alternative to chemicals, electroanesthesia can be used as a fish anesthetic and requires no withdrawal time.

When using hook & line for collecting fish samples, fish may not be kept for personal use (unless individual has a current Washington State fishing license and the species in question can legally be targeted and kept) and must be returned to the water or disposed of in a proper manner.

The undersigned agrees to comply with the general and special conditions of this Scientific Collection Permit, and agrees to file a final report within 60 days of the expiration date of the permit.

This permit is not valid until signed by the permit holder and returned to WDFW either electronically or through the mail.
