Pendleton, OR 97801

Dear Mr. Jackson:

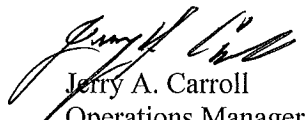

This is in response to your April 10, 2015 letter requesting approval for access to Bonneville Dam from May through September for the purpose of collecting up to 289 adult Pacific lamprey (*Entosphenus tridentata*), as part of the on-going project to restore lamprey to the tribes' ceded waters. This project is funded by the Bonneville Power Administration and managed by the CTUIR.

Please note, the Columbia River Inter-Tribal Fish Commission (CRITFC) has agreed to undertake the responsibility for collecting and holding lamprey at Bonneville's Adult Fish Facility.

With respect to the work outlined above, your request is generally approved, provided you are able to obtain all necessary ESA and state, or tribal permits. No work may begin until permits, or an explanation as to why permits are not required, are on file with the Ms. Ida Royer and Ms. Tammy Mackey. Prior to beginning work, please arrange a meeting with Ms. Ida Royer, 541-374-2541. Please remain in contact with Ms. Royer throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

A copy of this letter has been posted to <http://www.nwd-wc.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/2014%20NWP%20Access/>. If you have questions regarding this correspondence, please contact Ms. Royer via e-mail or by phone.

Sincerely,

  
Jerry A. Carroll  
Operations Manager  
Bonneville Project
