Mr. Ron Twiner
Operations Manager
U.S. Army Corps of Engineers
The Dalles Lock and Dam
PO Box 564
The Dalles, OR 97058

June 14, 2017

Dear Mr. Twiner:

The Nez Perce Tribe Department of Fisheries Resources Management (DFRM) is implementing a Pacific lamprey *Entosphenus tridentatus* translocation initiative. This effort is intended as a safety net measure for the Snake River segment of their distribution, within the Nez Perce Tribe's 1855 Treaty Area. Pacific lamprey are a culturally important resource of the Nez Perce Tribe. We are again requesting concurrence from the USACE to collect adult Pacific lamprey at The Dalles Dam during the 2017 lamprey migration season. We will be applying for ID badges and forwarding documentation to appropriate USACE staff in accordance with The Dalles Dam Lock and Dam Guide for Researchers.

Our translocation initiative includes collecting adults for outplanting in the Snake River Basin. Personnel from the DFRM desire to enter the project to collect live adults from Columbia River Inter-Tribal Fish Commission staff that will be trapping adults at strategic fishway locations. Our goal is to collect a total of 1,248 adult Pacific lamprey at lower Mainstem Columbia River Dams (Bonneville, The Dalles and John Day) during 2017. The target number of adults to be collected at The Dalles Dam is up to 599 fish. Fish collected at The Dalles Dam will be transported to our holding facility at The Nez Perce Tribal Hatchery at Tribal Unit 1705, near Lenore, Idaho. The DFRM will obtain all applicable permits for this activity. We have been and will be coordinating our planned collection efforts with USACE Columbia River Coordinator Ida Royer, The Dalles Dam Research Coordinator Erin Kovalchuk, and fisheries staff of the Columbia River Inter-tribal Fish Commission, Confederated Tribes of the Umatilla Indian Reservation, and Yakama Nation.

We appreciate the cooperation the USACE has provided during past (2006-2016) lamprey collection activities. Please respond regarding our needs to access The Dalles Dam Facility to collect adult lamprey to the following: David P. Statler, NPT Department of Fisheries Resources Management, 45559 Highway 12, Orofino, Idaho, 83544 (email: daves@nezperce.org/telephone:208-621-3575).

Sincerely,

David P. Statler
NPT Resident Fisheries Director
