Dear Mr. McIlraith:

This is in response to your May 8, 2018 letter requesting permission for Columbia River Inter-Tribal Fish Commission Personnel (CRITFC) to access The Dalles Lock and Dam for the purpose of collecting 3168 Pacific Lamprey during the migration season to support adult Lamprey collection by CRITFC member tribes (Yakama, Umatilla, and Nez Perce Tribes). You will deploy traps inside the fish ladder behind picketed leads at areas that are coordinated with USACE staff from June through October.

To reiterate, you will deploy traps inside the fishladder behind picketed leads at areas that are coordinated with USACE staff from June through October. CRITFC will again explore trapping in The Dalles north fishway this year due to increase in brood allocation.

With respect to the work outlined above, your request is generally approved, provided you are able to provide all the necessary documentation and obtain all required ESA and state permits. No work may begin until valid and current permits, or an explanation as to why permits are not required, are on file with Jeff Randall and Erin Kovalchuk. You will be required to comply with all reporting requirements found in the current FPP section TDA 3.3.3.

Prior to beginning work, please arrange a meeting with Jeff Randall, 541-298-7405. You will need to provide a detailed work statement, project impact statement, job hazard analysis, copies of permits, any Material Safety Data Sheets that are applicable, and a personnel list noting who has current CPR/Fist Aid training. Please send electronic copies of these documents to Jeff Randall, Jeffrey.W.Randall@usace.army.mil and Erin Kovalchuk, Erin.H.Kovalchuk@usace.army.mil.

There are many researchers and contractors working in the area. Please remain in contact with Jeff Randall throughout your time at the dam in order to ensure good communication and cooperation between agencies and organizations.
