April 3, 2018

Charles M. Barr
Oregon Department of Fish and Wildlife
Ocean Salmon/Columbia River Program
17330 SE Evelyn Street
Clackamas, OR 97015

Dear Mr. Barr

This is in response to your February 16, 2018 letter requesting approval for access to the Boat Restricted Zone (BRZ) at Bonneville Lock and Dam to facilitate the capture and tagging of Northern Pikeminnow as part of the Northern Pikeminnow Management Program.

With respect to your request to access the BRZ, access to the Powerhouse I and II forebay and tailrace BRZ during nighttime hours is approved. Please note that access to both the forebay and tailrace BRZ of the spillway during spill season (April 10 – August 31) is **not** permitted. You will be required to follow the protocols set forth in the Project BRZ guide and must have a valid BRZ permit.

With respect to the objectives outlined above, your request is approved. Please note that Project assistance may be limited, depending on the activities already scheduled at the dam.

Prior to beginning work, please arrange a meeting with Mr. Andrew Derugin, 541-374-4020. No work may begin until copies of all required permits are on file with Mr. Andrew Derugin, Andrew.g.Derugin@usace.army.mil and Mrs. Erin Kovalchuk, Erin.H.Kovalchuk@usace.army.mil.

Please remain in contact with Mr. Derugin throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

A copy of this letter has been provided on the following website for your reference and use: <http://pweb.crohms.org/tmt/documents/FPOM/2010/NWP%20Research/Research.html>. If you have questions regarding this correspondence, please contact Ben Hausmann at 541-374-4598, or Andrew Derugin by phone or email listed above.

Sincerely,

TONY R. KIRK
Operations Project Manager
Bonneville Project
