Subject: Northern Pikeminnow Management Program Employee Access

Dear Mr. Twiner:

The purpose of this letter is to request renewed access to The Dalles Dam to carry out ongoing BPA-funded evaluations associated with the Northern Pikeminnow Management Program. Charles M. Barr (Mac) continues to be the primary contact and project lead for this effort.

I am requesting access to The Dalles Dam tailrace for three individuals (i.e., Pikeminnow samplers) from 15 May-31 August, 2018. The pikeminnow samplers will coordinate closely with the WDFW/PSMFC Northern Pikeminnow angling crew that will be fishing in The Dalles tailrace, in order to collect diet samples and biological data from harvested Pikeminnow.

We will provide any pre-project documentation required of researchers working at The Dalles Dam and all necessary contact information so that security clearance and access badges can be issued.

If you have any questions or require additional information, please feel free to contact me directly (Office: 971-673-6084) or our Project Leader, Mac Barr (971-673-6081). Thank you for considering this request for project access.

Sincerely,

Eric Tinus  
Fisheries Biologist, Predation Studies
