Dear Mr. Tinus:

This is in response to your May 8, 2018 letter requesting permission to carry out ongoing BPA-funded research associated with the Northern Pikeminnow Management Program at The Dalles Lock and Dam. To reiterate, samplers will coordinate closely with the WDFW/PSMFC Northern Pikeminnow angling crew that will be fishing in The Dalles tailrace in order to collect diet samples and biological data from harvested Pikeminnow.

With respect to the work outlined above, your request is generally approved, provided you are able to provide all the necessary documentation and obtain all required ESA and state permits. No work may begin until valid and current permits, or an explanation as to why permits are not required, are on file with Jeff Randall and Mrs. Erin Kovalchuk. You will be required to comply with all reporting requirements found in the current FPP section TDA 3.3.3.

Prior to beginning work, please arrange a meeting with Jeff Randall, 541-298-7405. You will need to provide a detailed work statement, project impact statement, job hazard analysis, any Material Data Safety Sheets, copies of permits, and a personnel list noting who CPR/First Aid trained. Please send electronic copies of these documents to Jeff Randall, Jeffrey.W.Randall@usace.army.mil and Erin Kovalchuk, Erin.H.Kovalchuk@usace.army.mil.

There are many researchers and contractors working in the area. Please remain in contact with Jeff Randall throughout your time at the dam in order to ensure good communication and cooperation between other agencies and organizations.

If you have questions regarding this correspondence, please contact Jeff Randall via e-mail or by phone, at 541-298-7405.

Sincerely,

Ron D. Twiner
