

**YAKAMA NATION  
SCIENTIFIC COLLECTOR'S PERMIT**

1. This Scientific Collector's Permit is issued by authority of the Yakama Nation pursuant to its status as a self-regulatory manager of fish and wildlife resources.
2. The undersigned agencies, entities, or persons are authorized to take fish and wildlife species listed below for scientific purposes only, subject to the conditions of this permit.
3. This permit is non-transferable. Agencies, entities, or persons not listed on this permit may not collect fish and wildlife species under authority of this permit.
4. A report of take must be completed and returned to the tribal Fisheries Resource Management Program at termination of sampling activities.

**CONDITIONS:**

**Location, species and number to be taken:** John Day Dam & McNary Dam (Columbia R.), Pacific Lamprey (*Entosphenus tridentatus*), juvenile/larvae, up to 500.

**Purpose of collection:** Transfer will occur to use the captured fish for an acoustic telemetry juvenile passage study in the Lower Yakima River (between Union Gap and mouth) as well as mainstem Columbia River.

**Disposition of catch:** Once captured, lamprey will be placed into aerated totes and transferred initially to YN Prosser Hatchery in Prosser, WA. Fish will be tagged (acoustic or PIT) and subsequently released in the Lower Yakima River (primarily near Union Gap and near mouth of the river) to document migration and movement within the Lower Yakima River and the mainstem Columbia River downstream.

**Agency, entity, or persons authorized to take fish and wildlife under this permit:** Yakama Nation Fisheries Resource Management Program, Pacific Lamprey Project (Ralph Lampman, Tyler Beals, Sean Goudy, Leona Wapato, Dave'y Lumley & other crew members) and US Geological Survey Columbia River Research Laboratory staff (Theresa Marty Liedtke, Lisa Weiland, Ryan Tomka).

**Dates or duration of sampling activities (not to exceed current year):** March 10, 2018 to December 31, 2018

**Other specific conditions:** None
