

## SCIENTIFIC COLLECTOR'S PERMIT

1. This Scientific Collector's Permit is issued by authority of the Yakama Nation pursuant to its status as a self-regulatory manager of fish and wildlife resources within its ceded lands.
2. The undersigned agencies, entities, or persons are authorized to take fish and wildlife species listed below for scientific purposes only, subject to the conditions of this permit.
3. This permit is non-transferable. Agencies, entities, or persons not listed on this permit may not collect fish and wildlife species under authority of this permit.
4. A report of take must be completed and returned to the tribal Fisheries Resource Management Program at termination of sampling activities.

### CONDITIONS:

**Location, species and number to be taken:** Collect up to 4,500 adult chinook salmon (spring, summer, fall), 2,000 adult sockeye salmon, and 3,000 steelhead at Bonneville Dam Adult Fish Facility located on the lower Columbia River. Potential incidental catch includes lamprey, suckers, sturgeon, peamouth, and shad.

**Disposition of catch:** All salmonids will be measured, assessed for injury, have scales removed for aging, a caudal fin punch for genetic stock identification, and receive a PIT tag. All fish will be anesthetized prior to sampling and revived in freshwater prior to release into the Columbia River.

**Agency, entity, or persons authorized to take fish and wildlife under this permit:** Columbia River Inter-Tribal Fish Commission and the following staff: Crystal Chulik, Agnes Strong, Aaron Ikemoto, Amber Cate, Jayson Fivecrows, Jeff Fryer, John Whiteaker, and any temporary staff.

**Dates or duration of sampling activities (not to exceed current year):** April 1, 2019 to October 31, 2019

### **Other specific conditions:**
