Dear Mr. Haffey:

This is in response to the Four Peaks Environmental memorandum received February 19, 2020, requesting approval from the U.S. Army Corps of Engineers (USACE) to access fish count stations and utilize equipment at the Bonneville Project. Fish counting will occur at the Bradford Island, Cascade Island, and Washington shore fish ladders at Bonneville Dam. Full-time access is needed to these facilities to meet research requirements.

With respect to the objectives outlined above, your request is approved. Please follow the guidance in USACE contract No. W912EF19C0002 and continue to communicate with contract CORs Chris Peery and Bob Wertheimer.

Prior to beginning work, please arrange a meeting with Mr. Andrew Derugin, 541-374-4020, Andrew.G.Derugin@usace.army.mil. Please remain in contact with Mr. Derugin or Mr. Hausmann, 541-374-4598, throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.
